CELEBRATING CANADA'S MOST INNOVATIVE COMMUNITY

Have your views reflected in rural development strategy

The Department of Fisheries, Aquaculture and Rural Development is formulating a rural development strategy for Prince Edward Island and to garner as much input as possible, they have set up an online, confidential survey.

To ensure your views are reflected in the strategy, visit <http://www3.gov.pe.ca/survey/index.hp?sid=66958&lang=en> and take the survey.

The strategy will only be as good as the information it is based on.

Make your views count!
